

Services To

Facility Managers

SINGLE SOURCE ACCOUNTABILITY

ADVANTAGE: **COMMITMENT**

Everything you need comes from one source. Wall 2 Wall provides consultation in project planning and product selection, provides materials and installs your finished floor, taking complete responsibility for every aspect of the project.

UNPARALLELED PRODUCT SELECTION

ADVANTAGE: **FLEXIBILITY**

Wall 2 Wall is not affiliated with any manufacturer of flooring materials, yet we have long-standing relationships with numerous manufacturers. We offer you the most choices at the best prices.

NATIONAL EXPERIENCE/NATIONWIDE NETWORK

ADVANTAGE: **STRENGTH**

Wall 2 Wall has completed flooring projects throughout the United States. We are also a member of StarNet, the national cooperative of premium flooring contractors. Our capabilities for completing projects on a national scale are unmatched: over 140 offices nationwide.

NATIONALLY CERTIFIED

ADVANTAGE: **COMPETENCE**

Most costly mishaps occur in the installation, not in the product. Installation of commercial floor coverings is not a trivial matter. In fact, it is on site *manufacturing* of a finished floor. Wall 2 Wall is nationally certified by the Floor Covering Installation Board (FCIB), and our installers are certified by the Carpet and Rug Institute (CRI). Our own certification program is tougher than the national programs. To achieve efficiency through single source outsourcing, your flooring contractor must be competent. Wall 2 Wall is.

CUSTOMER DRIVEN

ADVANTAGE: **RELIABILITY**

Flooring contractors that you can rely on are worth much more to you than those that you can't rely on. Our success depends ultimately on how reliable we are to our customers. We focus tenaciously on meeting our customers' needs efficiently, effectively and without unpleasant surprises. Rely on it.
